

# FEATURE ACTIVITY

## MOUSE PAD

Make a new pal to accompany you on your computer adventures!

### SUPPLY LIST:

- Coloured foam
- Scissors
- Glue
- Decorations

### INSTRUCTIONS:

1. Decide what shape you want your mouse pad to be—we made a robot!
2. Cut out the shape you want from a large foam sheet.
3. Cut out different coloured pieces of foam for a face or for decorations.
4. Glue the foam decorations to your mouse pad shape.
5. Let the glue dry and then log on to your computer for cyber adventures with your new foam pal.

### ADDITIONAL TIPS:

Remember—leave lots of room in the middle or bottom of your mouse pad so you can move your mouse! In other words, decorate your mouse pad sparingly.
