TEDDY BEAR MAGNET

Bring your fridge to life with this adorable teddy bear magnet!

SUPPLY LIST
- Wooden Craft Sticks
- Glue Stick
- Googly Eyes
- Paint
- Construction Paper
- Markers
- Adhesive Magnet(s)
- Cardboard Square

INSTRUCTIONS
1. Cut a piece of cardboard into a square. This will be the base for your magnet!
2. Apply glue to one side of the cardboard. Press the craft sticks onto the glue, trying to keep them as even as possible.
3. Paint the craft sticks. You may want to do a few coats! (If so, you’ll need to be patient and let the paint dry between coats!)
4. Once the paint is dry, glue on the eyes.
5. Cut out ears and a bowtie (or any other decoration!) for your bear. Glue them on.
6. Use a marker to draw a nose and a mouth!
7. Attach the magnet strip to the back of the cardboard. Now your teddy bear is ready to go on your fridge!

ADDITIONAL TIPS
- You can create many different types of animals with the same technique! Fill your fridge with your own animal-magnet zoo!
