INSTRUCTIONS

1. Start off by creating your adorable snowman playing pieces. Take a paper cup and draw on a face. You can make your snowman happy, sad, surprised – whatever you like!
2. Apply glue to either side of the cup. Take your pipe cleaner, and press each end onto the glue. Press and hold it in place until it is well attached.
3. Apply more glue to each end of the pipe cleaner and attach a pompom to either side. Now your snowman has earmuffs!
4. With your playing pieces completed, it's time to move onto the board! Work together to design the path your snowman will follow. Use pencil first so you can erase any mistakes. Once it's all laid out, go over the path with white paint.
5. While the paint is still wet, sprinkle glitter over it to add some shine to your board game. Use glue to attach cotton balls around your board to give it a wintery feel.
6. Once everything is dry, you're ready to play!

Additional Tips:
Make your board game more complex by adding some extra special spaces! Using a white pencil crayon, add in some extra conditions to a few tiles. Brainstorm these conditions together, or use this list to get you started: Move back three spaces! Jump forward two spaces! Sing a line from your favourite song! Do five jumping jacks! Give your friend a high-five!
